

# Smart Network USB Adapter

**Cat. No. SM-NUA**

## Features

This adapter (Cat No SM-NUA) is a convenient and economical solution to add a USB drive (eg: memory stick or hard drive) to a Smart Gateway or SoftPLC system. This provides for large capacity, easily removable, storage for data logging applications.

The adapter connects to one of the Smart Ethernet ports, and provides a USB 2.0/1.1 compatible port for a mass storage device.

The small and lightweight adapter works in conjunction with the Smart SoftPLC's LOG DATA functions to provide a robust solution for data logging applications, especially in remote areas where limited communications are available or when removable data storage is required.

The SM-NUA comes with a 1 foot CAT5 Ethernet cable and a 110/220VAC to 5VDC power adapter.
