

A-B PLC Migrations / Upgrades

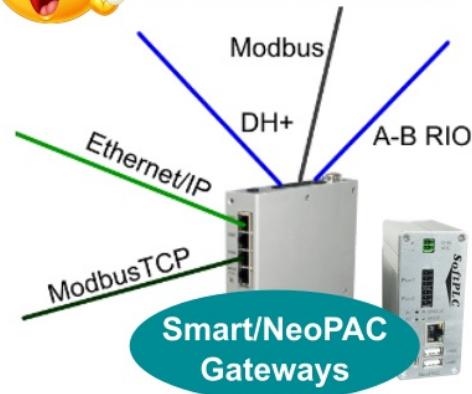

Problem!

EtherNet/IP to Allen Bradley
Remote I/O or DH+ Gateway
AN-X2-AB-DHRIO

Solutions!

[More Information - Specifications, Video, Applications](#)

Our Allen-Bradley Remote I/O and DH+ Gateways are available *in stock*.

SoftPLC Gateways are the optimal migration solution for Allen-Bradley PLC users - offering the most flexibility and features:

- Up to 3 "blue-hose" channels - any mix of DH+, RIO Scanner/Master, RIO Adapter/Slave
- Up to 16 user-selectable protocols supported simultaneously – Ethernet/IP, A-B Ethernet (PCCC), DF1, ModbusTCP, Modbus, & others
- Hundreds of thousands of data points supported in each Gateway
- Extremely fast data throughput, optimized drivers
- Diagnostics & monitoring on each network
- Supports user logic for data manipulation, data concentration, alarming, block transfer, peer-peer messaging, and many other functions

Smart & NeoPAC RIO/DH+ Gateways
