

NEW! IoTPAC

Not "just another" combined PLC & HMI!

SoftPLC's IoTPAC is a new standard for automation, providing both a full-feature PAC and SCADA on embedded, low-cost hardware platforms. An IoTPAC saves hardware/software cost, panel space, maintenance and provides a host of other benefits.

Ideally suited for M2M / IoT (*Internet of Things*) applications, the IoTPAC can be installed in the harshest environments. Customers can use any web browser locally or via the internet as the operator interface - from a PC, SmartPhone or tablet.

SoftPLC's IoTPAC is featured in the December issue of "Control Design" magazine!

Merry Christmas and Happy New Year!

We hope you all have a great Holiday Season. We're looking forward to 2016, and hope to help with your automation projects by providing and supporting you with value-priced, feature-rich automation products, technology, and services.

*So our employees can enjoy the holidays with their families, our offices will be closed December 23 - January 3, except for emergency shipments.
Emails to support@softplc.com and info@softplc.com will be answered.*
