

Upgrade Incentive Offer!

**\$1000 discount on a SoftPLC CPU
+ free programming software
when you buy TOPDOC for A-B PLC-2, PLC-5 or PLC-3**

If you need PLC support software to maintain your A-B PLC-2, PLC-3 or PLC-5 based machine or process, we still provide our TOPDOC programming, documentation and maintenance software. TOPDOC for A-B PLC's was long known as the "best of class", and was private-labeled by Allen-Bradley as the original PLC-3 6200 software.

Learn about our migration solutions at <http://softplc.com/products/migrations/plc/>

With TOPDOC, you can continue to maintain and troubleshoot your old PLC's.

But wouldn't it be nice if you didn't have to struggle with 20-40 year old controller technology and its limited memory, limited networking and obsolete hardware?

We make it easy for you to migrate to a new controller platform:

- No reprogramming - *we have automated import/conversion utilities*
- No re-wiring - *use the existing I/O & networks (if you want)*
- No re-training
- **VERY** low cost

Offer details:

With your first purchase of TOPDOC for PLC-2, PLC-3, or PLC-5, you get a coupon for a \$1000 discount on a Smart or NeoPAC SoftPLC/Gateway and a free TOPDOC NexGen to program it.

When you're ready to migrate your old A-B PLC based system, contact a SoftPLC sales engineer to discuss the details of your application and receive a quote. We'll help make sure the migration process will be as smooth as possible. eg: *You may want to purchase a Data Highway Plus interface or a 2nd RIO channel, support for additional I/O racks, or program conversion engineering beyond what the automated utilities provide.*

Fine Print:

TOPDOC purchases from eBay or other online resellers do not qualify for this offer.

You won't find a smoother, lower-risk, or lower cost migration path - including from Rockwell Automation!
